

INTRODUCTION TO DYSRHYTHMIA

B.A.R.T (BASIC ARRHYTHMIA RECOGNITION TRAINING)

(3 DAY COURSE)

Cardiac rhythm strips along with recognizing dysrhythmia will be discussed and taught. No treatment modalities are covered in this class. This course is recommended for licensed, or non-licensed personnel working in the healthcare industry, wanting to build up their resume for a clinical setting. Highly recommended for Monitor Technologists, C.N.As, EMTs, RN Students/recent Graduates and all others interested in entering the medical field as well as those who need a refresher in reading rhythm strips.

Workbooks and assignments will be given weekly along with a final test at the end of this course. This class offers a Certificate of Completion and is 6 hours each day for 3 days, totaling in 18 hours. No CEs will be rewarded.

Tuition - \$249
